■ Ivanka Trump's Apartment

After a nice summer break - great news to blog about again: the gorgeous Ivanka Trump has been featured on the cover of Elle Décor. Of course, she has a MODULIGHTOR fixture.

The long, white Art Light [AL03](#) fits perfectly with her incredibly stylish pad designed by the fierce Kelly Behun. What an honor to be featured there. It must be absolutely beautiful at night.

We've been having a great year here at MODULIGHTOR. Cheers for more successful design problems solved through to 2013!
